EXPERIENCE

Job Offer
[Prodesk IT (India)]
***Offered Position: [*Software Trainee]**

- **Received an official job offer for the position of [Software Trainee].**
- **Joining is pending.**

Web Development Intern **July 2025 – September 2025**
HCLTech (India)

- Completed an intensive, structured **Web Development training program** combining mentor-guided learning, practical assignments, and project-based development. Gained hands-on experience in **Full Stack Web Development**, covering frontend development, backend fundamentals, database integration, and end-to-end application workflows.
- Strengthened understanding of **frontend–backend integration**, RESTful APIs, data handling, form validation, and dynamic web application functionality. Applied programming and problem-solving skills to complete **real-world development tasks, coding exercises, and project-based assignments**. Applied programming and problem-solving skills to complete **real-world development tasks, coding exercises, and project-based assignments**. Gained practical exposure to **debugging, testing, error handling, and troubleshooting** during application development.
- Gained practical exposure to **debugging, testing, error handling, and troubleshooting** during application development. Worked within defined project requirements and timelines, demonstrating effective **task management, technical problem-solving, and timely project delivery**.*Performance Grade: A+ | Score: 92*

Polytropic Services Pvt. Ltd. **June 2025**
Industrial Internship – Web Development

- Worked on practical **web development projects**, gaining hands-on experience with frontend and backend fundamentals while developing responsive, functional, and user-friendly web solutions.
- Applied theoretical knowledge of **HTML, CSS, JavaScript, web technologies, and development concepts** to understand and address real-world organizational requirements and technical challenges.
- Demonstrated strong **problem-solving abilities, adaptability, time management, and professional work ethics** while completing assigned development tasks with sincerity, consistency, and attention to quality.

PROJECTS

Gate Pass Management System| Full Stack Web Application, Cloudinary, Google Authentication, Bcrypt **October 2025**

- Developed an intuitive and responsive interface with **frontend, backend, and database integration**, focusing on usability, data Developed a **Full Stack Gate Pass Management System** with secure **Google Authentication and Bcrypt-based password encryption**, enabling reliable user authentication and protected access to the application.
- Integrated **Cloudinary** for efficient cloud-based image and document storage, while implementing seamless frontend–backend integration for managing student records and gate-pass operations.
- Designed and developed a Gate Pass Management System to digitize and streamline the student **entry and exit process**, **replacing traditional register-based record management** with a centralized digital solution.

Movie Ticket Booking System| Full Stack Web Application, React.js, Node.js, MongoDB, Bcrypt, Cloudinary **November 2025**

- Developed a **full-stack Movie Ticket Booking System** using **React.js, Node.js, and MongoDB**, enabling users to browse movies, check show timings, select available seats, and manage ticket bookings through a responsive interface.
- Implemented secure **JWT-based authentication and Bcrypt password hashing**, integrated **Cloudinary** for media management, and incorporated a **payment gateway** to support secure online payments and complete end-to-end booking functionality.

TECHNICAL SKILLS

Languages: Java, C++, C, JavaScript, Python, SQL, HTML/CSS, ML, Data Analytics and Data Visualisation
Developer Tools: Git, Docker, Kubernetes, Postman, JMeter, IntelliJ, AWS, OCI (Oracle Cloud Infrastructure)
Technologies/Frameworks: Spring Boot, React, Redux, Node.js, Express, MongoDB, MySQL, Django, PLSQL,Bootstrap, Tailwind CSS,REST APIs, GraphQL
Skills: Data Structures and Algorithms, OOP, Automation, CI/CD Pipelines, Agile Practices, Test Case Development, Testing with Cypress/Postman, Code Review, Agile Scrum, Team Collaboration

EDUCATION

B.Tech in Computer Science and Engineering **Chappra,India**
Lok Nayak Jay Prakash Institute of Technology– **7.40/10** **2023-2027**
B.sc in Computer Science and Data Analytics **Patna,India**
Indian Institute of Technology, Patna – **8.28/10** **2023-2026**

CERTIFICATIONS / ACHIEVEMENTS

- **Certified Full Stack Developer** 2023 || Cypress-Automation testing using Javascript 2024
- Certificate of Participation-I am thrilled to share that I have completed the Geodata Processing using Python course offered by the Indian **Institute of Remote Sensing (IIRS),** under the **Indian Space Research Organisation (ISRO)** 2025.
- I has successfully completed the online course on **AWS Beginner Certification** with **Grade A**
- Awarded Five Academic medals during college and **secured First Rank** in the Department of Computer Science.
- Participated in the **Smart India Hackathon (SIH)** in 2025 and Selected in the College for SIH.
